*Gel Wax Prisms,
Chunks or Shapes
allow you to create
unique candles!*

INSTRUCTIONS

Gelly Dessert Candle

STEP 1

Remove Glass Wax from packaging and place in a pan designed for the stove top or place in a melt bag.
If using a melt bag, place melt bag in a pot of boiling water.

STEP 2

Heat on a low temperature until Glass Wax has liquefied.
If using a melt bag, increase the temperature so that your water is boiling.

STEP 3

Add 2 or 3 drops of scent to the melted Glass Wax, if desired.

STEP 4

Choose a glass container for your candle.

STEP 5

Select your favorite color(s) of Gel Wax Prisms, Chunks, or Shapes.

STEP 6

Press Gel Wax Prisms, Chunks, or Shapes to the inside wall of your glass container so that they adhere to the glass.

STEP 7

Cut the length of Gel Wick (refer to Gel Wick packaging for proper wick size) required for your container allowing an extra 1/2" at the top.

STEP 8

Secure a Wick Tab to the end of your wick. (Refer to Wick Tabs Instructions). Position Gel Wick and Wick Tab in the center of your container.

STEP 9

Allow Glass Wax to cool slightly then pour Glass Wax into your Glass Container ensuring that the wick remains in the center.

STEP 10

Additional Gel Wax Prisms, Chunks, or Shapes can be added to the top to give an additional chunky appearance.

STEP 11

Allow to cool completely.

STEP 12

Trim wick to 1/4" and your "Gelly" Dessert Candle is ready to burn.

Gel Wax Candle

STEP 1

Choose a glass container for your candle.

STEP 2

Select your favorite color(s) of Gel Wax Prisms, Chunks, or Shapes.

STEP 3

Use a 6" or 8" pre-waxed wick, depending on the height of your container.

STEP 4

Holding the wick in the center of your container, tightly position Gel Wax Prisms, Chunks or Shapes around the wick to hold the wick in position.

STEP 5

Continue to fill your glass container with Gel Wax Prisms, Chunks, or Shapes until you have reached the top of your container. Gel Wax Prisms, Chunks, or Shapes must be tightly packed around the wick.

STEP 6

Add 2 or 3 drops of scent to the top of your finished product, if desired.

STEP 7

Trim the wick to 1/2" above the Gel Wax Prisms, Chunks, or Shapes and your creative candle is ready for burning.
